STATE BANK OF PAKISTAN
STATISTICS AND DATA SERVICES DEPARTMENT

Preface

State Bank of Pakistan (SBP) produces reliable and timely statistics pertaining to central banking and related areas of interest for the use of policy makers, researchers, academia and other stakeholders. The Monthly Statistical Bulletin (MSB) is a reflection of such efforts. This publication provides a wide range of data disseminated in one place, most of which is also available on the websites of the respective data producers such as SBP and Pakistan Bureau of Statistics (PBS). It is available on the SBP website at: https://www.sbp.org.pk/reports/stat_reviews/Bulletin/index.htm. To further facilitate the users, data tables are provided in MS excel format. Moreover, for most of the tables we have also provided links to archive of respective datasets at the end of relevant tables.

Readers are also encouraged to use SBP EasyData (easydata.sbp.org.pk), an intuitive and interactive data portal from where one can access, download and plot time-series data from a collection of more than fourteen thousand variables. Recently, we have upgraded the EasyData and introduced new features including a notice board, information on related datasets, most viewed series during selected period and a new API to retrieve a complete dataset. SBP EasyData users are encouraged to subscribe to email notifications for staying updated on important data releases and new features.

Notes:-

1. Classification of size wise deposits has been improved by collecting data from all Scheduled banks based on actual size of each account. Previously, it was based on estimates by average size of different size groups.
2. The upper limits of the range is exclusive of amounts e.g. Rs. 500,000 to 750,000 stands for Rs. 500,000 and over but less than Rs. 750,000

- Gross disbursements mean the amounts disbursed by Reporting Institutions (RIs) either in Pak Rupees or in foreign currency against loans during the month. It also includes loans repaid, renewed or rolled over during the month. In case of running finance the disbursed amount however means the maximum amount availed by the borrower at any point of time during the month.
- Foreign currency loans are first converted into Pak Rupees at the prevalent exchange rates of the last day of the reporting month.
- Loans (Disbursed & Outstanding) mean all types of RIs's advances including working capital finance and disbursements against payments of documents i.e. Letters of credit, inland bills etc. but excluding foreign bills. Advances cover all types of advances including inter RIs placements. Interest accrued is not a disbursement and therefore it is not considered as loan. Staff loans whether interest free or not, are not included.
- All disbursements made to non-residents, private sector, public sector and government are included.
- All credit facilities such as credit cards, personal loans etc. and credit schemes such as LMM, export finance scheme and commodity operations are included.
- Outstanding loans mean the loans recoverable at the end of the month. Weighted Average rates of advances and deposits have been compiled by:
 - Including advances and deposits at zero markup of return, i.e. non-remunerative advances and deposits
 - Excluding advances and deposits at zero markup of return, i.e. non-remunerative advances and deposits
- Deposits include all types of deposits including inter RIs deposits and placements. Margin deposits (deposits held by RIs as collateral against letters of credits, letters of guarantees etc.) are however, not included.
- Foreign currency deposits are first converted into Pak Rupees at the prevalent exchange rates as of the last day of the reporting month.
- Fresh deposits mobilized during the month include outstanding balance of:
 - Fresh deposits (new accounts) mobilized during the month
 - Re-priced and/or rolled-over deposits during the month
- Outstanding deposits show position of deposits held by RIs at the end of the month.
- "Public" stands for Public Sector Banks - the banks incorporated in Pakistan or the shares/capital controlled by the federal and/or provincial governments.
- "Private" stands for Private Sector Banks incorporated in Pakistan, owned and controlled by private sector.
- "Foreign" stands for the branches of banks working in Pakistan but incorporated abroad
- "Specialized" stands for Specialized Banks established to provide credit facilities, assistance and advice to clients in a designated sector or in a designated line of credit; for example, agriculture sector, industrial sector, etc.
- DFIs stands for Development Finance Institutions and MFBs stands for Microfinance Banks.
- Financial Institutions (FIs) means Scheduled Banks, Development Finance Institutions and Microfinance Banks.
- Weighted Averages have been worked out by weighting interest rates by the corresponding amounts of loans/deposits. The formula used is:
 Weighted Average Rate = $\frac{\sum (\text{Rate} * \text{Amount})}{\sum (\text{Amount})}$

* A REER index of 100 should not be misinterpreted as denoting the equilibrium value of the currency. 100 merely represents the value of the currency at a chosen point in time (in this case the average value of the currency in 2010). Therefore, movement of the REER away from 100 simply reflects changes relative to its average value in 2010 and is unrelated to its equilibrium value.

NOTES: -

i. From July 2020, PBS has discontinued the dissemination of CPI on base 2007-08 using which the REER index was calculated, and changed the base to 2015-16. For the compilation of the REER index, therefore, the CPI - Base 2015-16 has been spliced and rebased to 2010 using the IMF's methodology.

ii. RPI and REER indices may be revised due to revisions in base period or splicing factor of CPIs data by PBS.

iii. Weights and number of trading partners have been updated from Jan, 2016 and revised for Jan, 2013 to Dec, 2015. The REER and NEER have been recalculated since Jan, 2013 using these revised weights and number of trading partners.

For detail, please visit the Revision Study at <https://www.sbp.org.pk/departments/stats/NEER-REER.pdf>

iv. Appreciation (depreciation) of REER is sometimes confused with the concept of currency overvaluation (undervaluation) while these are two separate concepts and not necessarily interpreted in the same direction. For an assessment of a country's exchange rate misalignment, a more sophisticated analysis is required taking into account factors such as demographics, external and fiscal sustainability, and some other macroeconomic fundamentals over the medium-term. The following explainer-video on REER [by SBP] goes into further detail.

Trade data compiled by Pakistan Bureau of Statistics and State Bank of Pakistan may differ from each other due to the following reasons: -

1-The SBP Exports and Imports include general merchandise (including goods procured on parts by carriers) and net export of goods under general merchanting based on Balance of Payment Manual (BPM6). The SBP export and imports are based on realization of export proceeds and import payments made through the banking channel. Information on exports and imports unaccounted for by the banking channel are collected from the relevant sources and added to the exports/imports data reported by banks to arrive at the overall exports and imports. The trade data of PBS is, on the other hand, based on physical movement of goods crossing the custom boundaries of Pakistan. Both sets of data are comparable with some deviations due to difference in coverage, timing, valuation and classification of exchange record vis- à-vis customs record.

2- The SBP trade data and PBS exports are valued on Free on board (f. o. b.) basis, whereas PBS import data is on Carriage Insurance & Freight (c. i. f.) basis.

3- Cumulative figures are of Financial Year (Jul-Jun).

Chapter 8- Prices

Consumer Price Index

Consumer Price Index (CPI) is main measure of price changes at retail level. It measures the changes in the cost of buying representative predefined basket of goods and services and to gauge the increase in the cost of living in reporting period. Laspeyres's formula is used to compute CPI is:-

$$CPI = \frac{\sum (P_n / P_0) W_i}{\sum W_i} \times 100$$

Where

P_n = Price of an item in the current period

P_0 = price of an item in base period

W_i = Weight of the i^{th} item in the base period.

Wholesale Price Index

Wholesale Price Index (WPI) is designed to measure the directional movements of prices for a set of selected items in the primary and wholesale markets. Items covered in the series are those, which could be precisely defined and are offered in lots by producers/manufacturers. Prices used are generally those, which conform to the primary sellers realization at *ex-mandi* (market), ex-factory or at an organized wholesale level

Sensitive Price Indicator

The Sensitive Price Indicator (SPI) is computed on weekly basis to assess the price movements of essential commodities at short intervals so as to review the price situation in the country.

Chapter 10- Public Finance

Debt Rescheduling

Debt Rescheduling is undertaken through an agreement between the borrower and the creditor to re-arrange the schedule of principle and interest payments due on the debt outstanding. In addition, the rescheduling agreement may include provisions for debt relief to enable the borrower to regain its financial strength to service the rescheduled debt obligation.

Direct Tax

A tax levied directly on the taxpayer such as income and property taxes.

Indirect Tax

A tax levied on goods or services rather than individuals and is ultimately paid by consumers in the form of higher prices such as sales tax or value added tax.

Chapter 11- National Income Accounts

Gross Domestic Product

GDP of a country is one of the ways of measuring the size of its economy. GDP is defined as the total market value of all final goods and services produced within a given country in a given period of time (usually a year). It is also considered the sum of value added at every stage of production (the intermediate stages) of all final goods and services produced within a country in a given period of time, and it is expressed in monetary terms. Followings are the three approaches to measuring and understanding GDP:

- i. **Expenditure Based**
Expenditure-based gross domestic product is total final expenditures at purchasers' prices (including the f.o.b. value of exports of goods and services), less the f.o.b. value of imports of goods and services.
- ii. **Income Based**
Income-based gross domestic product is compensation of employees, plus taxes less subsidies on production and imports, plus gross mixed income, plus gross operating surplus.
- iii. **Output Based**
Output-based gross domestic product is the sum of the gross values added of all resident producers at basic prices, plus all taxes less subsidies on products.

Basic Price

The basic price is the amount receivable by the producer from the purchaser for a unit of a good or service produced as output minus any tax payable, and plus any subsidy receivable, on that unit as a consequence of its production or sale; it excludes any transport charges invoiced separately by the producer.

Gross Value added at Basic Prices

Gross value added at basic prices is output valued at basic prices less intermediate consumption valued at purchasers' prices.

Gross National Income

GNI measures the total economic growth of a country and takes into consideration income and taxes earned both internationally and domestically, while GNP only measures the income and taxes earned by domestic citizens.

Net National Income

Net national income (NNI) is the aggregate value of the balances of net primary incomes summed over all sectors is described as net national income.

Gross Fixed Capital Formation

The estimates of GFCF in Pakistan are primarily constructed separately for private and public sectors by economic activity as well as by capital assets. It comprises expenditure incurred on the acquisition of fixed assets, replacement, additions and major improvements of fixed capital viz. land improvement, buildings, civil and engineering works, machinery, transport equipment and furniture and fixture.

* The definitions are consistent with Balance of Payments Manual, 6th edition (BPM6), published by IMF.
