* A REER index of 100 should not be misinterpreted as denoting the equilibrium value of the currency. 100 merely represents the value of the currency at a chosen point in time (in this case the average value of the currency in 2010). Therefore, movement of the REER away from 100 simply reflects changes relative to its average value in 2010 and is unrelated to its equilibrium value.

Notes:

i. From July 2020, PBS has discontinued the dissemination of CPI on base 2007-08 using which the REER index was calculated, and changed the base to 2015-16. For the compilation of the REER index, therefore, the CPI - Base 2015-16 has been spliced and rebased to 2010 using the IMF's methodology.

ii. REER indices may be revised due to revisions in base period or splicing factor of CPIs data by PBS.

iii. Weights and number of trading partners have been updated from Jan, 2016 and revised for Jan, 2013 to Dec, 2015. The REER and NEER have been recalculated since Jan, 2013 using these revised weights and number of trading partners.

For detail, please visit the Revision Study at

<https://www.sbp.org.pk/departments/stats/NEER-REER.pdf>

iv. Appreciation (depreciation) of REER is sometimes confused with the concept of currency overvaluation (undervaluation) while these are two separate concepts and not necessarily interpreted in the same direction. For an assessment of a country's exchange rate misalignment, a more sophisticated analysis is required taking into account factors such as demographics, external and fiscal sustainability, and some other macroeconomic fundamentals over the medium-term.

@ Net sale/Purchase of Special USS bonds, Eurobonds, FEBEC, DBC, Tbilis and PIBs

Notes: The data relates to last working day of the month.

1. Foreign Direct Investment Inflows/Outflows include cash received for investment in equity, Intercompany Loan, Capital Equipment brought in/out and reinvested earnings. New format adopted from July 2012.

2. Others include IFIs and countries not mentioned above. The details of countries included in Others are available.

3. The data is based on Ultimate Controlling Parent Country concept and may not be compared with the data based on Immediate Investing Countries published for year FY11 and earlier.

4. The data from FY15 has been revised by incorporating the FDI channeled through permissible off-shore accounts. The revision study is available at:

<http://www.sbp.org.pk/departments/stats/Notice/Rev-Study-External-Sector.pdf>

Source: Pakistan Bureau of Statistics

Notes:

Trade data compiled by Pakistan Bureau of Statistics and State Bank of Pakistan may differ from each other due to the following reasons:

1- The SBP Exports (BOP) & Imports (BOP) include general merchandise, repairs on goods and goods procured on parts by carriers. The SBP export and imports are based on realization of export proceeds and import payments made through the banking channel. Information on exports and imports unaccounted for by the banking channel are collected from the relevant sources and added to the exports/imports data reported by banks to arrive at the overall exports and imports. The trade data of PBS is on the other hand, based on physical movement of goods crossing the custom boundaries of Pakistan.

2- The SBP data is general merchandise based on Balance of Payment Manual (BPM6), whereas PBS data is on Cost, Insurance & Freight (c. i. f.) basis.
